

## TECHNICAL PRODUCT SUMMARY

# Carcinoembryonic Antigen (CEA)

### PROTEINS

Cat. No.	Description	Source	Purity
C0224	CEA	Human Liver Metastasis	≥95%
C0223	CEA	Human Colon Cell Line	≥95%
C0222	CEA, Spiking Grade	Human Fluids	Crude

### ANTIBODIES

Cat. No.	Description	Source	Subclass
MC027	CEA Monoclonal	200301	IgG1

*Intended Use: All Products are for Research Use or Further Manufacture Only. Not for Use in Diagnostic Procedures.*

### Carcinoembryonic Antigen

Carcinoembryonic Antigen (CEA) is a glycoprotein expressed in a variety of secretory tissues. CEA is thought to be involved in intercellular recognition and attachment in the development and proliferation of various metastases. Elevated serum levels of CEA are associated with several malignant states, and immunoassays for CEA have been used for several years in monitoring many such malignancies.
