

PRODUCT SPECIFICATION

ACT Dilution Buffer Tris/NaCl, pH 7.4

Catalog Number: B1015 **Part Number:** 90551

Form

Supplied as a clear liquid, 0.2µm filtered.

Formulation: 20mM Tris, 150mM Sodium Chloride, pH 7.4 ± 0.1

Characteristics Specification

ACT Dilution Buffer is a ready-to-use product intended for the dilution of α-1-Antichymotrypsin (cat. # A1824). After diluting, the protein should be stored frozen in aliquots for maximum stability, avoiding multiple freeze-thaw cycles.

Although the material has been filtered (0.2µm) prior to bottling in nonpyrogenic and noncytotoxic media bottles, it is not packaged and tested for sterility. The dilution buffer should be re-filtered for use in sterile applications.

Storage / Shipping

Product is shipped using a refrigerated gel pack (*not temperature monitored*). On arrival, store refrigerated at 2°C to 8°C.

Precaution / Hazard Statement

This product is not considered a biohazard. Handle using normal laboratory procedures.

Intended Use: For Research Use or Further Manufacture Only. Not for Use in Diagnostic Procedures.

Manufacturers of the highest quality proteins and antibodies.
